iQ Series, Gen II

HIGH-OUTPUT, TANKLESS, ON-DEMAND WATER HEATERS

GEN II - WHAT'S NEW

- Wi-Fi Connectivity Remote access and real-time monitoring of your Gen II unit are made possible with the new Wi-Fi and 3G/4G connectivity feature. Each unit can be easily connected to your building's router or to Intellihot's internet hub.
- **Touch-Screen** Easily access daily, weekly, and monthly usage data, troubleshooting info, and longevity of parts via a large, intuitive touch-screen. Floor model units feature a 7"color touch-screen.
- Mobile App, telliCare® Effortlessly monitor water inlet/outlet temperatures, flow rates, flue gas temperatures, combustion rates, and more, with Intellihot's mobile app, telliCare conveniently available on your iOS mobile device.

APPLICATIONS

Hotels, Multi-Family Complexes, Sky-Rise and High-Rise Buildings, Stadiums

COMPLETELY GREEN FULLY WARRANTED

Fully Condensing, High-Efficiency

10-Year Commercial HX Warranty

TECHNOLOGY OVERVIEW

Our iQ Series floor-standing units deliver the highest capacity in the industry – up to 1.5 million BTUs – with no storage tanks required. Designed for very large volume, commercial applications, these high-input units slash capital costs by up to 50%, and decrease operational costs by up to 40%, when compared to traditional tank-type systems.

iQ1501 delivers approximately 1.5 million BTU/hr iQ1001 delivers approximately 1 million BTU/hr iQ751 delivers approximately 750,000 BTU/hr

iQ1501 | iQ1001 | iQ751 | KEY FEATURES

- Masterless Cascading Up to four iQ floor units can be cascaded for unprecedented capacity up to 160 GPM at a 70°F rise. Eliminate single-point failure with our patented Masterless Cascading technology. If one unit is offline for servicing, all other units regroup and continue to operate.
- Eliminate Mixing Valves & Lower Legionella Risks With no storage tanks, there's a lower risk for Legionella growth. By eliminating the need for mixing valves, this feature also reduces their associated unreliability and costs.
- Competitive Turndown Ratio With an industry leading turndown ratio, 50:1 for iQ1501, 33:1 for iQ1001, and 25:1 for iQ751, our units provide unparalleled gas savings.
- Compact Unit Featuring a 30" width and a 1025 lb. weight, iQ floor units fit through elevator doors and are ideal where space is at a premium.
- Common Venting Capabilities The iQ floor units transform common venting into smart–common venting...
- **ASME-HLW Compliant** Suitable for applications managed by engineers, specifiers and contractors.
- Factory Installed Strainer Units deliver debris-free inlet water to the system.
